

Sheep Balancer B136

Specie: Sheep

Type of Feed: Supplement

Form of Feed: Mini-Pellet

General Description: Sheep Balancer B136 is an all-purpose supplement for use in all stages of sheep production. Sheep Balancer B136 can be used to supplement breeding ewes and rams as well as growing-finishing diets for high genetic potential feeder lambs fed for optimal performance. Sheep Balancer B136 is ideal for most farm flocks.

SHEEP BALANCER B136 MEDICATED

Type B Medicated Feed

(For Ruminants Only)

SUPPLEMENT FEED FOR ALL CLASSES OF SHEEP

For prevention of coccidiosis caused by *Elmeria ovina*, *E. crandallis*, *E. ovinoidalis* (*E. ninakohlyakimovae*), *E. parva*, and *E. intricata* in sheep maintained in confinement.

CAUTION: FEED AS DIRECTED

ACTIVE DRUG INGREDIENTS

Lasalocid (as Lasalocid sodium) 136.00 g/ton

GUARANTEED ANALYSIS

Crude Protein, (Min) 36.00%
(THIS INCLUDES NOT MORE THAN 4.00% EQUIVALENT
CRUDE PROTEIN FROM NON-PROTEIN
NITROGEN)

Crude Fat, (Min)..... 1.00%

Crude Fiber, (Max)..... 11.50%

Calcium (Ca), (Min)..... 4.50%

Calcium (Ca), Max 5.50%

Phosphorus (P), (Min) 0.85%

Salt (NaCl), (Min) 2.50%

Salt (NaCl), Max 3.50%

Selenium (Se), (Min) 1.30 ppm

Vitamin A, (Min)..... 20,000 IU/LB

*INGREDIENTS

Plant Protein Products, Processed Grain By-Products, Calcium Carbonate, Salt, Ammonium Sulfate, Molasses Products, Dicalcium Phosphate, Monocalcium Phosphate, Vitamin E Supplement, Ferrous Sulfate, Potassium Iodide, Manganous Oxide, Cobalt Carbonate, Vitamin D3 Supplement, Sodium Molybdate, Roughage Products, Zinc Sulfate, Manganese Sulfate, Sodium Selenite, Vitamin A Supplement, Zinc Oxide.

*** Note: Ingredients differ by manufacturing plant.**

Please refer to the tag for a current list of ingredients.

FEEDING DIRECTIONS:

1. Thoroughly mix 441 lbs. of this Type B Medicated feed into 1559 lbs. of non-medicated feed to obtain one ton of Type C medicated feed containing 30 g/ton lasalocid.
2. Feed the resulting type C Medicated feed continuously at a rate of 1 to 4.6 lbs. to provide 15 to 70 mg lasalocid per head per day depending on body weight.

LIMITATIONS FOR USE:

- Do not allow starving lambs to this feed.

Available Options:

Product No.	Package	Size Diameter
1860220-206	Bag 50#	5/32-11/64
1860220-201	Bulk	5/32 – 11/64

Product Features:

Product Benefits:

36% Protein, 90% from Intact Protein Sources, 10% from Ammonium Ions	Proper level of high-quality protein for optimal performance of fast-growing lambs.
Contains Ammonium Ions	Helps reduce risk of urinary calculi.
Fortified with Macro Minerals, Sheep Specific Trace Minerals and Vitamins	Proper balance of minerals and vitamins provide for optimal health, supports function of immune system and performance.
Pelleted	Eliminates separation of supplemental ingredients.

IMPORTANT:

This product is to be fed only to the animal species as directed on this label. Follow these management practices:

1. Lambs should be adjusted gradually to this product (over a period of 5 to 7 days) to reduce the risk of overeating and other digestive disturbances.
2. This ration can be self-fed to lambs if they are properly adjusted to the ration.
3. Vaccinate all lambs to prevent enterotoxemia (overeating disease) with both C and D toxoid.
4. Keep a constant supply of complete feed available to lambs. Do not allow fine material to accumulate in feeders.
5. Provide adequate bunk space for each animal. Bunks should be well protected and well managed to prevent feed from becoming wet and moldy.
6. When fed from a self-feeder, adjust feeder to minimize quantity feed accumulating in the trough.
7. Fresh, clean water should be available at all times.
8. Provide free choice salt at all times.

CAUTION:

USE ONLY AS DIRECTED

Store in a dry, well-ventilated area protected from rodents and insects.

Do not feed moldy or insect-infected feed to animals as it may cause illness, performance loss or death.

This product is made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed.

KEY POINTS:

- Feeding undiluted or mixing errors may result in an excess of lasalocid concentration, which could be fatal to cattle and sheep.
- Do not allow horses or other equines access to Type A Articles or Type B feeds containing lasalocid as ingestion may be fatal.
- Safety of lasalocid for use in unapproved species has not been established.
