**\*INGREDIENTS**

Dehydrated Alfalfa Meal, Wheat Middlings, Ground Soybean Hulls, Cane Molasses, Dehulled Soybean Meal, Calcium Carbonate, Salt, Oat Hulls, Monocalcium Phosphate, Dicalcium Phosphate, Choline Chloride, Soybean Oil, Magnesium Oxide, DL-Methionine, Wheat Red Dog, Colored with Iron Oxide, Yeast Extract, Copper Sulfate, Active Dry Yeast, Ferrous Sulfate, Zinc Sulfate, Yucca schidigera Extract, Vitamin E Supplement, Manganese Sulfate, Zinc Oxide, Niacin Supplement, Manganous Oxide, Dried Aspergillus niger Fermentation Product, Organic Soybean Oil, Dried Bacillus subtilis Fermentation Product, Calcium Pantothenate, Papain, Maltodextrin, Vitamin A Supplement, Vitamin D3 Supplement, Dried Bacillus licheniformis Fermentation Product, Sodium Selenite, Menadione Sodium Bisulfite Complex (Vitamin K), Riboflavin-5-Phosphate, Cobalt Carbonate, Ethylenediamine Dihydroiodide, Pyridoxine Hydrochloride, Folic Acid, Vitamin B12 Supplement, Thiamine Mononitrate, Biotin.

**\*Note: Ingredients may differ slightly between manufacturing plants. Please refer to the tag for a current list of ingredients**

**FEEDING DIRECTIONS:**

PURINA(R) RABBIT FIBRE3(R) is a complete feed suitable for all classes of rabbits.

Feed requirements of rabbits will vary depending on their body weight, environmental temperatures, type of housing, and stage of production, i.e., maintenance, gestation, lactation, growth.

Adult non-lactating rabbits should be fed approximately 1/2 ounce of feed per pound of body weight. Offer the amount they will clean up in approximately one-hour (30 minutes if feeding twice daily) and adjust the amount fed to maintain condition.

Nursing does and their litters should be full-fed. Lactating does will consume 1 to 3 ounces per pound of body weight per day.

Gradually increase the amount fed from kindling so at the time the litter is one week old the doe is consuming all of the feed she will eat.

Meat rabbits will consume an average of 4 to 5 ounces per day during the period from weaning to market.

Plenty of fresh, clean water should be available to animals at all times.

**Available Options:**

Product No.	Package	Size Diameter
3004919-206	Bag 50#	50# 1/8

**Product Features:**

**Product Benefits:**

100% complete daily nutrition	Purina® Fibre3® Rabbit Feed requires no additional supplements, is free from preservatives and artificial colors, and is great for rabbits of all ages.
Formulated without corn	For rabbit owners that prefer a diet for their rabbits that does not contain corn.
For any rabbit	Give young bunnies a good start and help older rabbits maintain the right body weight when fed according to directions.
First ingredient: Alfalfa	Balance your rabbit’s complete diet with protein, calcium and a sweet alfalfa scent.
Immune system health	Quality plant proteins give rabbits vitality.
GI tract support	A variety of fiber sources and prebiotics to support digestive health.
Odor control	Contains Yucca schidigera extract to help control manure odors.

**IMPORTANT:**

Follow these management practices:

1. Feed requirements of rabbits will vary depending on their body weight, environmental temperatures, type of housing, and stage of production (maintenance, gestation, lactation, growth).
2. Offer rabbits the amount they will clean up in approximately one hour (30 minutes if feeding twice daily) and adjust the amount to maintain condition. Do not overfeed.
3. Mature rabbits tend to overeat, become too heavy and lose body condition. Adjust feed rates to maintain desired weight.
4. Young rabbits will begin to consume feed when they come out of the nest box at approximately three weeks of age.
5. Feeding programs are only as effective as the management practices followed.
6. Provide plenty of fresh, clean water at all times.
7. When changing animals from one feeding program to another, do so over a 5- 7-day period. Mix the new feed with the old feed and gradually increase the amount of new feed mixed. It is always good practice to wash hands thoroughly after feeding and/or handling animals. Contents of bag are not for human consumption. Contains a source of live (viable) naturally occurring microorganisms.

**CAUTION:**

**TAG INFORMATION SUPERSEDES INFORMATION ON BAG**

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

**USE ONLY AS DIRECTED**

**KEY POINTS:**

- Please consult the feed tag sewn onto the bag for specific feeding recommendations.
